● ADDITIONAL INFORMATION

PROFESSIONAL SKILLS

Professional skills

Since 2008 I've been performing about 2500 surgical procedures as a 1st operator. My experience mainly covers the field of pancreatic surgery, wall surgery, bariatric surgery (about 350 procedures mainly sleeve gastrectomies, some OAGBs, laparoscopic and robotic and some laparoscopic RYGB) and oncological colorectal surgery. Most of the procedures were performed using minimally invasive, laparoscopic or robotic techniques.

I've participated to the advanced laparoscopic surgery course at the ACOI School of Castelfranco Veneto directed by C.A Sartori MD, the basic course and the advanced colorectal robotic surgery course at the International School of Robotic Surgery in Grosseto, directed by F. Coratti and Prof. PC Giulianotti.

I'm the author of various peer reviewed publications and i've numerous participations and oral communications to national and international surgical meetings.
Currently member of Sicob (Italian society of obesity surgery), ACOI (Italian hospital surgeons association), IFSO (International federation for surgery of Obesity and Metabolic disorders).
