IN FUNCTIONAL DIGESTIVE SURGERY MEETING  
AND SIUCP ANNUAL CONGRESS**

June 22-24, 2025 - Naples and Pompeii, Italy

**SAVE THE DATE**

## MEETING RATIONALE

---

The functional pathologies of the digestive system, that is, those conditions where normal digestive functions are altered without any immediately identifiable organic cause, are increasingly observed in our daily clinical practice. These functional alterations can affect every part of the digestive system, particularly the esophageal-gastric and recto-anal junctions, often with a very long course and symptoms that significantly impact patients' quality of life.

A crucial role in the treatment of these pathologies, such as gastroesophageal reflux disease (GERD), ineffective defecation syndrome, and also GERD in patients eligible for bariatric surgery, is increasingly entrusted to surgery. Identifying indications and limits for these interventions remains a topic of vigorous debate among specialists.

Participation in this event, organized exclusively in Round Tables among recognized opinion leaders, aims to provide a high scientific and educational update on the most recent epidemiological, diagnostic, and therapeutic developments related to functional digestive pathologies of surgical interest.

Moreover, the meeting will feature two Focus Sessions: one on robotic surgery in functional digestive surgery, exploring its indications and limits; the other on the principles of Enhanced Recovery After Surgery as applicable to functional surgery.

Additionally, the implementation of three pre-congress courses, two for physicians and one for nursing staff, represents an added value for those wishing to enhance their knowledge in specialized functional digestive diagnostics.

# HOT TOPICS

---

## PRE-MEETING COURSE

### *COURSE I*

**GASTRO-ESOPHAGEAL  
FUNCTIONAL DIAGNOSIS**

### *COURSE II*

**ANO-RECTAL MORPHO-  
FUNCTIONAL DIAGNOSIS**

### *COURSE III*

**NURSING COURSE  
Stoma Care, Pelvic Floor  
Rehabilitation, OR Safety, Robotic  
Surgery**

## ROUND TABLES

### *ROUND TABLE I*

**GASTRO-ESOPHAGEAL REFLUX  
AND FUNCTIONAL SURGERY**

### *ROUND TABLE II*

**GASTRO-ESOPHAGEAL REFLUX  
AND BARIATRIC SURGERY**

### *ROUND TABLE III*

**INEFFECTIVE DEFECATION AND  
PELVIC ORGAN PROLAPSE**

### *ROUND TABLE IV*

**HEMORRHOIDS AND OTHER  
BENIGN ANAL DISEASE**

## FOCUS SESSIONS

### *FOCUS SESSION I*

**ERAS PRINCIPLES IN FUNCTIONAL  
DIGESTIVE SURGERY AND THE  
NOVEL ROLE OF LOCO-REGIONAL  
ANAESTHESIA**

### *FOCUS SESSION II*

**ROBOTIC SURGERY: ACTUAL USE  
IN FUNCTIONAL DIGESTIVE  
SURGERY**

*Venue of the meeting*
